

## From the Ground Up

Shovels dig, tractors till, rakes make it smooth  
Seeds drop, leaves grow, the warmth rolls on through  
Birds cheap, animals peep, rain fills the cup  
Spring is coming and Earth is growing from the ground up

Flowers grow, trees bloom, fruits grow on vines  
Crops grow taller; air smells sweeter, land shapes into lines  
Weeds pulled, produce picked, red fingers sneak strawberry jewels  
Harvest time is here, out comes the tools

Embrace the air, treat her with care  
Shape the Earth into something beautiful  
Start in the heart, from the ground up
