

# *Columbus East's New Science Lab*

*Entry to the lab*

*Independent project area*

*New fume hoods*

*Physics area*

*Chemistry area*

*Biology area*

## ***Opening soon!***

*All of our science classes use this one space. Students have the opportunity to come into lab during their resource time, if they have been absent or did not finish during their regular classroom time. There is opportunity for independent study. Lab experiments that need longer class time have the opportunity to be set up and observed by students throughout the day. Students also have the opportunity to observe other classes and become acquainted with the teachers of these classes.*
