

**Bartholomew Consolidated School Corporation  
Physical Education Waiver Information Packet**

**To the Parents of Prospective PE Waiver Students (High School Only):**

The purpose of this program is to accommodate students who wish to participate in extracurricular activities and/or accelerated physical education activities that meet the standards of the required general physical education courses. This waiver program could substitute for the two credits of general physical education required by the State of Indiana and BCSC for graduation. To replace both required credits of general PE would require the student to participate in two waiver opportunities. **Credit will be determined on a credit/no credit basis, an “A” will be posted for a grade upon successful completion of the waiver but will not count in the student’s GPA.**

For a PE waiver to be approved, the waiver program must meet certain guidelines set by the Bartholomew Consolidated School Corporation. Enclosed you will find a copy of the General Guidelines for a BCSC PE Waiver as well as the necessary forms for participation. These guidelines are for your information. **Credit will be granted only to those students who are participating in a program that is in total compliance with these guidelines.** BCSC may not have control over the daily activities of some waiver alternatives, the quality of the waiver alternative, or qualifications of the instructor of some waiver alternatives. BCSC does not perform criminal background checks on off-campus instructors or coaches. BCSC is not responsible for accident or hospitalization insurance.

Please read the enclosed guidelines carefully. For your child to be considered for a waiver to earn credit for physical education through this program, the student’s counselor must be notified during the scheduling process and an application must be completed and returned to the high school PE/Health Department. Applications are due in the PE/Health Department by the end of the first week of the semester for which the waiver is being requested.

The program is available to only those students who are attending high school.

Please contact your high school PE/Health Department if you need further assistance or if you need additional information.
