## --- Combined Elementary Band ---

### Variations on a Familiar Theme

The "familiar theme" is The French song "Twinkle, Twinkle Little Star." It is a musical form where a theme is followed by variations, or different versions, of the theme.

--- Conductor -- Larry Tews ---

Wolfgang A. Mozart

### Sakura, Sakura (Japanese Folk Song)

Japanese folk music has origins in ancient China. "Sakura, Sakura" was written for the koto, a 13-stringed instrument that is over 4000 years old.

--- Conductor -- James Lucas ---

Arr. John Higgins

### March Militaire

"March Militaire" is the introduction and theme from one of the three military marches, for piano duet, composed by Franz Schubert.

--- Conductor -- Brad Milleman ---

Franz Peter Schubert

### Fanfare March

Frank Erickson has composed a brilliant composition featuring the trumpet section of the band. With a well-arranged accompaniment of woodwinds, low brass and percussion instruments, the trumpet section plays in duet form that allows for a strong and exciting band ensemble throughout the Fanfare and March.

--- Conductor -- Kevin Cottrill ---

Frank Erickson

## --- Combined Central-Northside Intermediate Band ---

### Bravada

This exciting new composition with its strong themes and dramatic rhythms, skillfully presents the sophisticated sounds of the modern wind ensemble to a young band.

--- Conductor -- Robert Marks ---

Jerry Nowak

### Viva Espanole

A collection of folk songs from three Latin-American countries captures the flavor of the folk music of these cultures.

1. Los Carpinteros (The Carpenters) Puerto Rico
2. Riqui Ran Brazil
3. Cielito Lindo Mexico

--- Conductor -- Ora Pemberton ---

James Curnow

## --- Combined Central-Northside Advanced Band ---

### Torero!

Mark Williams -- Torero! is a composition full of the fire and excitement of the bullfight ring yet well within the capabilities of the Advanced Bands.

--- Conductor -- Robert Marks ---

Mark Williams

## ~~ Program Selections ~~

### Serengeti (An African Rhapsody)

John Higgins

"Serengeti" is divided into four movements depicting a day in Africa. Beautiful visual pictures are created through the music.

1. Daybreak 2. Safari 3. Celebration 4. Sunset

--- Conductor -- Ora Pemberton ---

### --- Combined East-North Symphonic Band ---

### Albion (Prelude on an English Ayre)

Douglas Akey

This is a thrilling prelude based on the well-known tune "Scarborough Fair". Energetic rhythms, engaging harmonies and driving eighth/sixteenth passages make Albion a wonderful composition.

--- Conductor -- Kevin Cottrill ---

### Novena (Rhapsody for Band)

James Swearingen

From the Latin novem, meaning "nine," a devotion in the Roman Catholic Church repeated nine times for obtaining certain graces or offering thanks for graces received. Novenas are often made in preparation for great feast days, such as Pentecost Sunday and Christmas Day. Novenas can be made at any time during the year at will.

--- Conductor -- Brad Milleman ---

### --- Combined East-North Wind Ensemble ---

### Chorale and Shaker Dance II

John Zdechlik

"Chorale and Shaker Dance" is made up of two main musical ideas. The first is the simple melody found in the opening Chorale. The second melodic idea is the melody from the well-known Shaker Hymn, "The Gift to Be Simple."

--- Conductor -- Henry Buckingham ---

### Emperata Overture

Claude T. Smith

An exceptional work for contest or festival, "Emperata Overture" is a great way to showcase a modern band with a very solid, yet exciting and rewarding work.

--- Conductor -- William Stultz ---

### ---- Combined Elementary-Middle School-High School Mass Band ----

### E Pluribus Rockum

Jerry Williams

This composition is written so that all of the 1st parts are at a high school level, the 2nd parts are at a middle school level, and the 3rd parts are at an elementary school level.

This is a perfect way to combine different level bands into one band to close a concert.

--- Conductor -- All Directors ---

## ---- Objectives ----

The band directors in the Columbus community strive to develop and bring out the talent in every student by teaching proper techniques, tone production, breathing, and instrumental skills. By teaching instrumental skills and enthusiasm in band music, the directors provide opportunities for students to develop their own individual talents as well as to developing an understanding of the aesthetic qualities of music. The instrumental skills that are taught in the band classes are proper fingering, hand position, note reading in the range of the instrument, proper phrasing, technique and tone development. Students in the band program shall be able to appreciate one's own worth, and to recognize individual strengths and weaknesses in order to improve and apply them to personal growth and continued learning. The band program will develop a value system and form moral, ethical standards that enable one to be sensitive to other people and cultures. Most importantly, the program will develop a lifelong commitment to music, valuing its importance in the musical life of the community and developing the ability to continue music learning independently. Instrumental classes at the participating Band Spectacular concert are offered on an elective basis. Opportunity is given for those with special interest to further their knowledge of music and to become participating members of a performing organization.
